EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Cullman, Michelle Glasky and Janis Biksa on January 16, 2008.

The application has been amended as follows:

In the Claims:

Claims 77-83 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicant amended the claims to require that the device be an aneurismal tissue treatment device, and included a Markush group of various therapeutic agents. The claims also require a pump and tubing. The closest prior art is now the patent to Urquhart, US 3,797,485, however, Urquhart does not disclose a pump for use with aneurysms, but for systemic administration of drugs through "intact blood vessels" (column 1, line 38) to avoid puncturing the blood vessel. Various drugs are administered. There is no suggestion absent hindsight reconstruction to use the Urquhart device for an aneurysm

in view that it is for intact tissue, and aneurysmal tissue is damaged and unpredictable, and the device is for systemic delivery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
